

VILLAGE ENHANCEMENT

The first project this year is to renew the jubilee tree flower bed in Abbey Road, which looked wonderful when covered in daffodils but then very bare. The Parish Council agreed to plant the bed with plants that will attract bees and butterflies but will also mark the Queen's Platinum Jubilee. This work will be carried out early next week and will mark this special occasion.

The flower boxes are planted twice a year but some plants are retained and kept to replant. We feel the boxes welcome everyone to the village.

To everyone who mows grass in front of their houses a big thank you. We are also grateful to our mowing contractor for keeping our village looking good. Some visitors walking round the village a couple of weeks ago remarked how impressed they were with our village.

I am sure everyone will be making their gardens look impressive for the Jubilee weekend and a big thank you to everyone on behalf of the Council.
